

BLUEMOUND ROAD AND ADJACENT RAMPS CLOSED

Construction has begun on the Bluemound Road bridge over US 45, 95th Street, 97th Street and surrounding freeway ramps. Bluemound Road, between 95th Street and 97th Street, closed October 16th. Demolition of the Bluemound Road bridge occurred overnight October 17th. The bridge is scheduled to reopen in June of 2015. (see map to right)

Bluemound Road, at US 45, will be reconstructed to add new freeway entrance and exit ramps; these ramps can only be reached from I-894/US 45 and will no longer be accessible from I-94. Bluemound Road will also be widened and the traffic signals will be upgraded. (see rendering below)

The US 45 southbound exit ramp to Bluemound Road is scheduled to open in Fall 2015. The entrance ramp to US 45 northbound is scheduled to open in late 2016 with the remaining two ramps opening in late 2017.

Motorists are advised to use WIS 100, Greenfield Avenue, Watertown Plank Road, 84th Street, Kearney Street and 76th Street to get around the closure.
